Little Luceil Drake

Little Luceil Drake is born December 25, 1900 and dies January 7, 1901 according to her headstone.

There is no direct evidence of who her parents are. There is only one Drake family of African American descent in the 1880 - 1920 Censuses of Montgomery County, Texas.

Her most likely parents are Phillip Drake and Annie Sheppard who marry August 27, 1898 in Montgomery County, Texas. The other children of Phillips parents, Lafayette Drake and Susan Rose Drake, don't marry until after 1900. Phillip Drake is living in mothers home along with her new husband Randal Early. Phillip is shown as having been married 2 years but Annie is not with him and she has not been found in any census records.

The other possibility is that Susan Rose and Randal Early have a child after they marry December 25, 1894. They are living together in the 1900 Census in Montgomery County, Texas. Randal is age 48 and Susan is 50. Five of her children born to her and Lafayette Drake are living with them. Randal and Susan have not had any children in this 6 year period.
