### Lucy Green

Possible Parents of Lucy Green

Most Likely Possibility:

Lucy Green according to the headstone is born in July 1897 but the day is not readable. She dies July 3, 1897.

A Mary Green is living in Conroe in the 1900 census with 5 children. She is married but no husband is listed in this census. She has had 6 children but only 5 are living. She has a daughter named Ola who was born in May 1897. Ola may have been born in 1898 because the age reported by her mother is 2. The next older child is Mary A. Green age 4, born April 1896. Lucy could have been born in the intervening year.

A More Remote Possibility:

Isam and Mary Green are living in precinct 5 of Montgomery County which is in the NW corner of the county. They had a son in July of 1897, named Alvin. It is possible Lucy was a twin. Alvin survived, but in the 1900 census, she reports she has had 3 children and all 3 are living so probably not her.
